E X P E R I E N C E

The precise origin of the Gin & Tonic is lost in the mists of time.
Gin was drunk for medicinal reasons from the early 1600s onwards.

The Gin & Tonic originated in 18th century India, where the British East India Company used tonic water as a preventative measure against Malaria, as it contains Quinine. This very bitter tonic was soon made more acceptable to the British palate, with the addition of gin... and the rest is history!

Over 100 years later, the Gin & Tonic is more popular than ever.
We are now spoilt with the selection of gin styles, tonic water variants and garnishes we can finish our drinks off with.

See for yourself and begin your Gin & Tonic adventure with us.
